

Hubble and the Cosmos

Thomas C. Fox | May. 15, 2009 NCR Today

[Hubble has a new camera.](#) [1]

If you are like me then you have marveled, really marveled, at the photos we have seen in recent years taken by the Hubble spacecraft. Pondering the unimaginable proportions and beauty, I've at times been driven to a sense of insignificance, and then I move beyond.

We are fortunate to live in an age when science is expanding our minds and reach. Now if only our wisdom could keep up with our knowledge.
