Dennis Coday | Jul. 6, 2009 NCR Today

With the release of the new social encyclical *Caritas in Veritate* (the English title is "Love in Truth") just hours away, I thought readers might want a quick reference guide to previews of the document.

- [In preview of new encyclical, Benedict reprises 'dictatorship of relativism' speech](#) [1]
- [Economic encyclical expands on church's 'best-kept secret'](#) [2]
- [A key to reading Benedict's social encyclical](#) [3]

Typing "Caritas in Veritate" into our [search engine](#) [4], will get a few more hits, but the three above are what most people seem to want.
