

Best colleges by alumni salaries

Tom Gallagher | Aug. 10, 2009 NCR Today

PayScale.com has just released its second annual rankings based on [how much money a graduate makes](#) [1]. Notre Dame first year grads' starting median salary is \$55,300, while ND midcareer alums make \$121,000.

Next in line: Jesuit schools, Santa Clara University and Georgetown University, where first year grads' median starting salary is \$58,000 and \$57,000 respectively, while midcareer grads make \$111,000 for each school.

Like other rankings, PayScale.com is being challenged on its methodology.
