

## Peggy Noonan on Time

Michael Sean Winters | Dec. 10, 2010 Distinctly Catholic

Peggy Noonan must have been reading up on her Augustine when she wrote [this essay](#) [1] on time and its uses. It is well worth taking the time to read it.

Noonan combines the darkness of Augustine, which is a commonplace, with the exuberance of Augustine, which is more frequently forgotten. As we all scurry getting ready for the holidays, attending parties, writing cards (actually, no cards from MSW this year - the book is due!), and shopping, always shopping, it is good to remember, as Noonan recalls, that we are called to pray unceasingly.
