

Real Socialized Medicine

Michael Sean Winters | Mar. 31, 2011 Distinctly Catholic

Bless their hearts, the [Vermont House of Representatives passed a bill](#) [1] that puts the Green Mountain state on the path to a single-payer health care system. At a time when many states are looking for ways to frustrate the health care reform law, how welcoming to find a state that is moving the ball further than the White House could move it last year. A single-payer health care system is the best solution, and always has been, and ,yes, it is socialized medicine and I am all for it.
