

Ecclesial Architecture Today

Michael Sean Winters | May. 20, 2011 | Distinctly Catholic

Our friends at America magazine have [an article about church architecture](#) [1]today, written by Roberto Chiotti and Richard Vasko. In addition the the many fine points they make about the need for church architecture to be environmentally friendly, they hihglight the wonderful renovation at the Cathedral of San Fernando in San Antonio, Texas. I had the pleasure of visiting that cathedral a couple of years ago and agree that the renovation was done masterfully and the result is one of the most beautiful churches in America.
