NCR on the Kindle As of this morning, you can read NCR on your Kindle.

About a year ago, subscribers began requesting access to NCR via their e-readers, Kindle being the most popular. We are happy to make NCR available in this new medium for the convenience of our subscribers, and hope that a new community of readers will discover NCR.

You can subscribe to the Kindle version of NCR at the [Amazon Kindle store](#) [1]. Subscription cost is \$1.99 per month, and Amazon offers a 14-day free trial.

The Kindle version of NCR is identical to the print version. Kindle's special features enhance the reading experience, including font size adjustment, highlighting and note taking. More information about NCR on the Kindle can be found [on our FAQ page](#) [2].
