

Looking at drones as a moral hazard

Mary Ann McGivern | Jul. 24, 2012 NCR Today

Sunday's New York *Times* [addressed](#) [1] the "Moral Hazard of Drones."

It's a good read, a consideration of Plato, likening drones to a magic ring and addressing the slippery slope we're on when we use the tool of invisibility.

Most important, I think, is that the *Times* discusses moral issues. Would that such discussion occurred in diocesan papers.
