

## Vargas Llosa on Benedict

Michael Sean Winters | Mar. 6, 2013 Distinctly Catholic

[This essay at El Pais by Mario Vargas Llosa](#) [1] on the legacy of Pope Benedict XVI is one of the most insightful I have read, and I am sure I missed some of it in translation. I have not found an English translation of it but if someone is more facile than I am, and undertakes the task, please send it to me so that I can post it.
