

John F. Kennedy's vision of peace

Claire Schaeffer-Duffy | Nov. 22, 2013 NCR Today

Rolling Stone magazine has published [Robert F. Kennedy Jr.'s fine essay](#) [1] about his uncle John's pursuit of disarmament and a U.S. pullback from Vietnam.

The lengthy piece records a disturbing history and is well worth taking the time to read. Robert F. Kennedy Jr.'s assessment of the JFK presidency is very similar to that given in James Douglass' book [JFK and the Unspeakable: Why He Died and Why It Matters](#)[2].
