

Kansas Pipes

Michael Sean Winters | Apr. 9, 2014 Distinctly Catholic

[This week's edition of "Pipe Dreams, \[1\]"](#) the radio show that celebrates pipe organ music, is recorded entirely at Bates Hall, on the campus of the University of Kansas, home to a magnificent Wolff organ in a room that is acoustically lively. Great stuff and if you live in the area, as many NCR readers do, you can follow the links to lists of concerts at the school, many of which are free.
