

Dionne on deBlasio

Michael Sean Winters | Apr. 21, 2014 Distinctly Catholic

[In this morning's Washington Post](#), [1] E.J. Dionne looks at New York City Mayor Bill deBlasio's first months in office. The growth of local and state progressive governance is one of the most under-appreciated developments in contemporary politics. The key question, better to say one of the key questions: Will companies flock to well-run cities and states, even if they have higher minimum wage laws and more union-backed workplace protections, because those are the kinds of places that the best workers want to live?
